Antonio Cangiano

Antonio Cangiano
Director, IBM Skills Network

Adam Glen Ping

has successfully completed the online Professional Certificate

IBM IT Support

Those who earn the IBM Technical Support Professional Certificate have completed 9 courses developed by IBM that include hands-on, practice-based assessments and are designed to prepare learners for entry-level roles in the field. Learners have a strong foundation in IT fundamentals, setup and configuration of hardware and software, programming basics, database fundamentals, cloud computing concepts, networking and cybersecurity essentials. They can also apply these skills for supporting customers to troubleshoot and resolve their technology related issues.

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
